

– Petition –

To the Honourable the Legislative Assembly of the Province of British Columbia, in Legislature Assembled:

The petition of the undersigned, KamloopsA4C, of the city of Kamloops, BC, states that:

British Columbians want an end to the implementation of a **Foreign Controlled Technocracy** plan in B.C. Canada.

- Klaus Schwab – the author of "Covid-19: The Great Reset" and the head of the private foreign corporate World Economic Forum, created plans that are being adopted by the British Columbia government without Constituent consent nor consensus;
- The foreign corporate group known as the United Nations has written goals for all humanity without consent nor consensus.
- Groups under the UN umbrella like The World Economic Forum, The Rockefeller Foundation and others have developed plans on how to implement these goals as seen in the Rockefeller Foundation “Scenarios for the Future of Technology and International Development” and these plans are offensive to British Columbia Constituents;
- Scenarios for the Future of Technology and International Development, written in 2010 by the Rockefeller Foundation, page 18 Lock Step – demonstrates a global pandemic resulting in fascist foreign control;
- Economist Ernst Wolff believes that a hidden alliance of political and corporate leaders are attempting to exploit the pandemic with the aim of crashing national economies and introducing a global centralized digital currency;
- Build Back Better slogan of Klaus Schwab is a key phrase meaning better for the 1% and worse for 99%;
- The Magna Carta of 1215 was the first Charter of Rights for our civilization and Klaus Schwab's plan would destroy the very root of our modern rights and freedoms in British Columbia;
- According to Peter Koenig – a geopolitical analyst - “The Great Reset, will reduce the world to 'modern' feudalism”;
- Klaus Schwab's forth industrial revolution is the blueprint for a complete transformation of the world economy. There will be no money, no private property, no democracy. Instead, every key decision — what you do for a living, how much stuff you consume, whether you can take a vacation — will be decided for you by a remote, unaccountable, unelected elite of ‘experts’ - this is extremely offensive to British Columbia Constituents;
- The WEF’s (World Economic Forum) vision for the future is a disingenuous, dishonest manifesto from an unelected ruling class – British Columbia Constituents choose not to follow their technocratic dictatorship;
- BC Constituents want these private foreign corporate groups and their policies removed from BC politics;
- The proposed Agendas centralize control of every aspect of Canadian lives to the Stakeholders. British Columbia Constituents are not interested in handing over control to the United Nations, WEF, Rockefeller Foundation, nor any foreign entity;
- These private foreign corporate entities and bankers envision a Chinese style Social Credit Score controlled by a central digital banking crypto scheme complete with a backdoor to deny citizens access for non-compliance;
- BC Constituents choose to instead have an active voice in decisions in British Columbia by BC Constituents to make such important narratives and policy of any said Great Reset;
- Albert Einstein once quipped that “No problem can be solved from the same level of consciousness that created it”. The ‘build back better’ notion at the heart of the “Great Reset” – indeed, all government visions today – is a doomed project for this reason. We, the BC Constituents, must be part of the solution, not the object of elite largesse;
- A review of The Great Reset by **Steven Guinness (UK)** reveals the same old language of ‘interdependence’, collaboration and cooperation that was heard from the Trilateral Commission in 1973. The then-and-now goal is Sustainable Development, aka Technocracy, and will result in the biggest resource grab in the history of the world.” ;
- British Columbians have already lost control and accountability of our resources in the Public Private Partnerships and are not willing to hand over our sovereignty, rights and freedoms to foreign interests;
- The BC Constituents want an open dialogue with MLA's to build an alternative Great Reset;

Your petitioners respectfully request that the Honourable House to:

- 1. Desist implementing the private foreign corporate UN, WEF, Rockefeller, etal. **Technocracy** plans in BC;***
- 2. Immediately create a Forum to open a dialogue to gather and implement Future Agenda Ideas from Constituents in British Columbia;***
- 3. Call upon all **Members of the Legislative Assembly of BC** to follow Canadian Law and represent your Constituents instead of foreign corporate private interest;***

British Columbians feel our government has been representing foreign entities like the UN, WEF, Rockefeller, etc and demand the interests of Constituents be followed instead.

Dated this _____ day of _____, 20____.
